BRIAN FAITH BAND

Does a politician with zero experience and zero track record think he can just waltz into a top office and learn on the job while taxpayer dollars are on the line? Some do.... but many a precious dollar has been thus frittered away.

Clearly the time has come to replace the old blood of *Get Nothing Done Government* with Fresh Proven Problem Solvers already here who are simply "IN IT" to FIX IT.

The Time has passed for "Lifer" politicians only in it to grab huge government Perks for "VOL-UNTEER Community" work. Clearly the time has come to stop electing people who are only in it to line their own pockets.... and you always pay! ❤️

"Speech is the gift of all, but the thought of few." - Cato The Elder

INSIDE: • SHOPPING • ART • OjaiFLOW • Rock N' Roll • SHAMEFUL POLITICS

The LA Times is suing the LA School Unified School District to have them release *Teacher Scores*. We release **Child Achievement Scores** and measure school kid performance against State, County and District levels of increase or decrease from year to year. Why not the **Teachers scores**? Has Tenure system provided a guarantee that rotten teachers stay in and allowed the parents to accept less than the best education for their kids? Without the teacher being scored, and that information released publicly, what assurance does a parent have that their child has been given the best education possible?

While we're at it, why not release the amount, **FREEBIE PERKS** received by the **Ojai Unified School District (OUSD) Board**? How many of those **HUNDRED DOLLAR BILLS** are going to **School Board Medical** expenses? Why do we pay **Medical** anyway? Isn't this a volunteer job. *Are the kids on some sort of probation and must do community service..... and this is their sentence to pay for board members?* The board is **NOT FORCED TO SERVE**, but **WE ARE FORCED TO PAY** for extra **PERKS**. The basic question is, "Have the current school

board members performed sufficiently to entitle them to another term? Has anything changed?" Same ole, *We Don't and Can't Make and Can't Do message. Ojai Unified School District....* without soul and worthless.... So, Who do you **VOTE** for in the Election? Now more than ever is the time to **throw out all incumbents on the Ojai Unified School Board**. They've bankrupted **OUSD** with their big cheese administrative salaries and Perks. So throw out **Linda Taylor** and **Elect Kevin Ruf** as he's a wizard with numbers and understands budgets very well, the best choice.

Look at how much **Casitas Water** pays its directors; **\$107.10 per meeting**. Ten maximum meetings per month. Look at the **Sanitary District Board Stipend**; **\$150.00** per meeting **\$75** per committee meeting. **The City of Ojai** has at least one council member collecting medical benefits at **\$17,000 per year**. How many levels of **PERKS** for voluntary service does the average citizen pay for? Too many, *farrrrr too many....* it's time to have those *worthless representatives* in **Sacramento** pass a bill preventing these types of **PERKS** like the cities of **Bell** and **Raggedy Edge Continued Page 4...**

Why VOTE FOR TROY BECKER CASITAS WATER DISTRICT

Troy Becker Casitas Water Candidate

For Immediate Release For More Information, Contact Troy Becker, 805-377-4288 troy@BeckerForOjaiWater.com

As election day fast approaches, our candidates are speaking out and so are their supporters.

See what some have to say about **Troy Becker**, running for **director of Casitas Municipal Water District**.

The water issue has been a huge one, with **Ojai Flow** leading the charge to take over the **Golden State water system** in **Ojai** and roll back rates for their customers. Now that all of this great work has been performed, it's never been more important to elect officials who will manage the water issues closely and ensure proper representation at both local and federal levels.

One top candidate on the ballot is **Troy Becker** -- a long-time resident of **Ojai**, with a well deserved record of outstanding community service and business success.

Many of you know him as the owner of the widely acclaimed **Ojai Pool Store** -- voted #1 for pool service all six of the years he has owned it. Many of you also know **Becker as Ojai's outstanding Planning Commissioner**. Here are what a few of his supporters have to say:

"Elect leaders that see the need and lead." -- **Patricia Allen**

"Troy looks at problems with an eye on solutions." -- **Bill Gilbreth**

"As President of our Industry Board, Troy didn't just lead our industry; he transformed it." -- **Jackie Miller, Executive Director, California Association of Dental Plans**

CLAREMONT CITY COUNCIL APPROVES PLAN TO BUY OUT GOLDEN STATE WATER

Joel Anderson

Getting rid of Golden State Water Company (GSWC) and passing the Water Rescue Bonds to purchase and remove the is your future guaranteed rate hike insurance.

The only way to guarantee stable water rates is to remove GSWC and Ojai residents from the California Public Utilities Commission System (CPUC) that never saw a rate hike they couldn't find a way to approve. The CPUC system allows GSWC to steal because the CPUC gives them any and everything they want.

The most sinister part of it is that the CPUC gets a percentage of the GSWC bill you pay! Yes, it's true, the CPUC has a vested profit interest in keeping the rates you pay up. The CPUC are Robbers! Whenever the CPUC needs more money for their travel junkets to Europe, they up the rates with their rubber stamp approvals.

CPUC President Michael "European Traveler" Peevey is the X CEO of Edison International, the fox IS inside the hen house, not just guarding it.

Recently the City of Claremont Voted to kick out GSWC. With advice and contact from Ojai City Council Candidate and Ojai FLOW Director Bob Daddi for over a year, the Claremont City Council approved a plan Tues. Oct. 23 to buy Golden State Water Company (GSWC), also a scourge upon Ojai citizen water utility ratepayers for their fraudulent and usury water rates.

Ojai citizens actually own the water under the ground which Golden State is contracted by the City of Ojai to provide/sell honestly to Ojai citizens. In April 1967 the Ojai City Council granted pumping and sales rights to GSWC in the form of a "Franchise" which is now on the table for buyout/revocation here either by Voters bond next Spring or outright Eminent Domain proceedings acted upon by the Casitas Water Board. Failure by Casitas will force the Ojai City Council to take its own action to protect the citizens from increasing water rate abuse now slated to be a 17 percent increase for the next three years.

GSWC has not proved to be a trustworthy corporate custodian of Ojai (and elsewhere) water resources in recent (and now apparent more distant secretive years) for citizens.

In a July 29, 2011 Settlement by the State Division of Water and Audits (DWA), Golden State reluctantly confessed to knowingly gouging Ojai Ratepayers to the tune of \$31 million (statewide). The DWA found that Golden State Water senior management knew

that their own "competitive" bidding process was skewed which resulted in higher than normal bid costs which was then passed on to the victimized Ojai ratepayers. Why white collar Golden State Water Company executives have not been brought up on Fraud charges by the California State Attorney General's Office is anyone's guess and beyond the scope of common decency, understanding...

Meanwhile a special Bond Measure, Water Rescue Bonds, are being prepared for the next Spring election which should result in GSWC being removed and sent packing. Chances are very good they will be finally and fairly bought out of their Franchise and sent out of town and the valley. It is well known that no love will be lost between Golden State Water Co. executives and the multitude of victimized Ojai Ratepayer Citizens.

Currently GSWC has been strong-arming Ojai citizens with their demands for water bill payments which have resulted in thoroughly exasperated ratepayers. Still GSWC cannot seem to keep water services up and running as the pipes continually break in town resulting in hundreds of thousands of gallons flowing freely to the sea. GSWC is a private publicly traded NYSE corporation which has posted record profits for many years.

The 2011 DWA Settlement ruled that Ojai Ratepayers were to receive a return of just \$1.2 Million (portion of the approximately reduced 30% of the gouged \$31 million) of the victimized ratepayers statewide. The refund was conveniently amortized over time while the California Public Utilities Commission (CPUC) has continued to rubber stamp grant more GSWC Requests for Rate Increases each time. Said, Ryan Blatz, a local Ojai attorney who also is a member of OjaiFLOW, "What's nice is that OjaiFLOW feels it has been vindicated.... as we have stated from day one, Golden State is an unethical corporation and they will do anything including break the law to charge us the highest rates possible...."

EDITOR'S NOTE: Help celebrate the Demise of Golden State Water Company (GSWC), Golden State Farewell Party ~ "A fun Kick Off to the Water Rescue Bond Voter campaign" DETAILS: Wed., Nov. 28, 2012, 6pm, No host bar, 6:30 to 8pm, Party & Information, All are welcome, including GSWC executives and mounful relatives, LOCATION: Ojai Valley Inn, Main Meeting Room (left of the Parking Valet). Donations to Ojai FLOW in lieu of GSWC memorium flowers and presents! RSVP to info@ojaiFLOW.com

ELECT BOB DADDI OJAI CITY COUNCIL Tues. Nov. 3 VOTE

- Bob thinks all studies should be limited to Ojai. Comparing to other cities is a waste of money.
- There is only one Ojai.

• Bob thinks all residents complaints should be in writing

Proven Leader!!! Expedite All Permits & Lower Fees Endorsed by Former Mayor Suza Francina

“Don’t Tell Me Who I am... Let me guess !”

Women’s Power Over Men

Of all the formative experiences in life, the most important for most of us is the early relationship with our mother. She is the primary mediator between the outside world and us. For men, this powerful ‘mother imprint’ is more psychologically influential than any other one. Therefore, the major influx of information men receive about themselves comes from Woman (i.e. mother). In order for a man to attain his own sense of self and inner authority, he must achieve a healthy separation from the powerful bond with his personal mother. All documented initiation rituals have shown this throughout the ages. It is only when a man accepts the power that women and the feminine can have on him in full consciousness that he can separate successfully – otherwise he will play out the following infantile patterns with women forever. (James Hollis)

A man is still under the power of his mother complex and out of touch with his own masculine self when:

- a) He is obsessively jealous.
- b) He telephones his wife four times a day to feel secure.
- c) He constantly criticizes his wife for not being nourishing enough.
- d) He declares his wife incompetent and totally controls the bank book.
- e) He has an incessant roving eye.
- f) He puts women down or attacks gays.
- g) He overly tries to please his partner at his own expense.

Contrary to popular opinion, we find that more often than not, men are the emotionally dependent sex. This dependency can show up in being passive, clingy and overly needy. The fact is..... a woman can't give a man his strength back, he has to find it on his own by becoming a man amongst men. If there are dependency issues developed between mother and son, life becomes complicated. These dependency issues, whether acknowledged or not, are later played out in life by men with their wives or girlfriends.

Check Out My Website/blog: www.DrPeterMilhado.com

Dependency rooted in the mother complex can also appear when a man avoids the existential pain of confronting life's painful conflicts and trials, by regressing back into 'the womb' of food, drugs, sex, gambling or drink. The monastery is another symbol of 'the womb' for quite a few men who enter it. So can be organizations like the Masons, the city council, the church, the local pub, the softball team, etc. When men do not individuate and live their own lives, they're in a heap of trouble. The power of this regressive longing for 'the womb' cannot be overemphasized, yet man has to resist and sacrifice this longing in order to come into his own. Only daily courage keeps him from slipping back. Regarding the mother complex, it is not true that 'what we don't know won't hurt us', but the reality is..... what we do not know hurts us deeply. Actually, what we do not know – controls us !

There are other men who are neurotically dependent on the feminine, but rather than being overly dependent, compensate by taking on a "macho attitude" of "One oppresses what one fears and what one fears one attacks". Whenever we see men trying to control, we see fear's ugly work. The main dynamic of many rapists and wife beaters is a sense of inadequacy, inferiority and impotence. For one reason or another "macho men" are terrified of the power of the feminine and compensate through violence, be it physical or psychological. Where power is, love is not. (Jung). Power in itself is neutral, but without love, it is dominated by fear and often driven to violence. Power without love has been the motto of our patriarchal culture, which has been driven by predatory corporate greed. There are some men in the corporate world who are beginning to realize that no perks, or car, or money, or key to the executive washroom will compensate for the daily loss of soul. The Faustian pact of selling one's soul for privileges takes a heavy toll.

One for all and all for one. Love to Mother Meera

Extensive Experience With Folks Over Forty, Artists And Psychotherapists In All Creative Fields

Continued From Page 2...

Vernon. All too much PUBLIC FEED-ING AT THE TROUGH - POSITIONS WHICH BILK the average citizen with hidden expenses.

These do nothing get nothing done board members will ask, "Aren't we worth those perks?" I think the answer needs to be "Is that the only reason you are holding that office?" If it is Yes, THEN throw them out. If it is No, fine, eliminate those PERKS and see who is really inter-ested in holding those positions and doing the "people's work" and who really just wants a FREE RIDE. Life time medical for a Volunteer Elected Position is disgust-ing.

We can't afford the costs that are going to be paid out in the future, along with mas-sive Utility Rate Increases across the board and with the rest of the underfunded pension costs. Get rid of the FREE RIDE CAREER POLITICIANS once and for all.

Real Environmen-talists groups in Ojai seem to be lacking these days, most are just out for freebie grants to pay their leaders while they pay their lowly workers nothing or next to. The Environmental Movement has never been about money, my the times they sure have changed, capitalist environmental-ists.... now that's a contradiction. The Green Klan has way too much power and influence over our local government much like the Ku Klux Klan did in the good ole boy days. Interesting the internet dictionary says a Club IS a Klan.... or maybe one in the same. "The Green, Go Green".....

Perhaps there is redemption for these wayward souls? Maybe the GREEN FOLKS who love applying for Grants can find a link to "Perks and Environmental Issues" and take up the cause to elimi-nate perks for non-salaried and part-time volunteer positions and restrict everything, except reimbursement for mileage.

Yes we need the best, but do you really expect attracting the best with offers of PERKS, REALLY, REALLY. If we could get better that way, then I would VOTE to make positions FULL TIME PAID and get BETTER people that could give BETTER results, not the ones we now have who just sit on their hands taking the money.

Maybe we are being too cheap? Maybe with a little pay increase we could attract better people? Isn't this what the 5 Ventu-ra County Cities with open positions for City Manager are saying? We need to pay more to get BETTER. It has never worked in the past; only resulted in city bankrupt-cies, more.... NEVER ever does MORE get MORE, never! We need to go back to a day where officials cared about our town and country, not selfishly themselves with their Me First attitude that drains our government budgets. Real citizens with competence and a Get It Fixed attitude running the Government again. Better does get Better.

Government is broke but they are not cutting back their own salaries and person-

nel numbers.

Maybe the Pay needs to be cut in half and a BONUS PAID FOR PERFORMANCE, instead of laziness. Isn't that a novel idea? Maybe a City should be run like a business, maybe not like Bain, but a business. Maybe a City Manager should get paid more for paving the way... providing a Balanced Budget, an Adequate Reserve, Paved Roads, but NO, they get paid the same no matter what they actually accomplish. Year after year they take our money as our country goes down the tubes.

One year is OK, one year is Better, one year is worse but the pay always increases along with their mismanage-ment. Maybe they should be paid as a percentage of the budget? The Santa Paula City Manager would be paid twice what the Fillmore City Manager is paid..... Oh they don't have one anymore..... I wonder how many Current (5) City Managers in Ven-tura County are looking to move up and take those Vacant slots or just use that

as leverage to get a raise?

I see a new industry on the horizon..... a management company that runs Cities, as a contract. No PENSION, PERKS, HEALTH CARE COSTS that the City has to pay for years and years in the future. Those costs double every few years. That will Bankrupt us eventually. No, just a contract like the Temp Agency; all costs are paid in FULL each year without the inflation cost hangover accruing. After all is said, how long is the average Tenure of a City Manager or City Attorney? Ojai's City Manager is Hired and the city attorney

is Contracted. Why? We have 5 City Manager Vacancies in this County. Yep 50 percent of the cities don't have a city manager.... that's ok if you are running for office. Fifty percent is all you need to get elected.

I read that, because of the State Budget loss of Tax Revenue, it is harder to run a City and that has caused some turnover of city managers. That because of those turnovers, the Cities must offer higher wages to fill those city manager positions. That thinking is like being an Alcoholic.... drinking to ease the pain, which brings the pain. Pay more for employees because we have less money to spend. The blood let-ting has got to stop somewhere. I hope the Cities have a plan for some of the revenue generation tax propositions which are failing. There's only so much blood left in the turnip, no wonder. If those proposition fail, we are going to need smarter people.

Thanks to X city manager Rick "Pasa-dena" Cole, Ventura is in need of a complete overhaul. Maybe Mr. Johnny Johnson, Ventura's Interim City Man-ager, working for just a \$1 might be the way to go, he can travel like Paladin, ("HAVE GUN WILL TRAVEL") Travel-ing from town to Town and righting the myriad wrongs. The price is sure right and that will help any Cities budgets. That might be the only answer for this County, a group of retired City administrators, form-ing a Not-For-Profit Company call them.... "Cities without Managers" or "Manag-ers without Borders" kind of like the old Texas Rangers, tracking down the crooks. Or we could ask Ojai's Retired Business Men's Club to assist. We know our seniors are underutilized and they may just want to help out? After all look what Mitt Romney did for the Olympics without pay. But then again.... look what he did for Bain?

Right now we need some real help, like the kind we used to have. Like John Mar-tin for the Ojai Recreation Department and someone like Bruce Roland and big Leland Hammerschmidt for the public commentary.

Hang 'em any which way you can, even if you have to resort to talking to an empty chair.

Hang em High !

- Dick Lynch

Wine And Roses

by Ron Rowe

In 95 BC, the philosopher Cato said, "Speech is the gift of all but the thought of few." Words are indica-tions, bearing the life force of the speaker. They appeal to our emotions. We are moved to action with an emotion-filled voice rather than one appealing to our intellect.

With the elections upon us, it's fascinating to listen to political speeches. Some politicians gave impassioned speeches, their eyes blazing with insincerity and their hearts hardened by ambition and ego. In contrast, listen to an unskilled speaker pleading for a cause he believes in. You can really feel the difference. Robert Burns once said, "What you are speaks so loudly I can't hear what you say."

Men use thought only to justify their injustices and speech to conceal their thoughts. The art of speech is transmitting mind pictures, true or false ones. We can listen to a politicians speech and know the speaker is just going through the motions, no energy or emotional life force. Another politician will have perfect diction, well modulated tone and excellent material but no life force or passion in the speech.

So, dear readers, sit back, listen carefully to the political speeches and then think carefully before you make your choice.

The year of the woman is upon us. Companies with women on the board of directors do better than comparable companies with all-male boards. A recent study of 3,000 companies showed that firms with more than \$10 billion in assets that had female directors outperformed similar companies with all male directors by over 30 percent over a period of six years.

A textbook analysis of 1.5 million books pub-lished since 1900 found that the proportion of male pronouns fell from 4.8 to 1 in the 1950s to less than two to one in 2011. Researchers say the changing ratio reflects a higher standard and visibility of women in our society today.

Sheldon Adelson, a casino magnate worth over \$21 billion, has given over 70 million to Repub-lican super pacs. He said he plans to give more and also said I will do whatever it takes to beat President Obama.

The wealth gap between the richest Americans and the average American has more than doubled over the past 40 years. In 1962 the top 1 percent had

125 times the net worth of the median American income family household. In 2011 they had more than 298 times more.

A new study found that 26 percent of seniors receiving Medicare spent all their savings and most there homes and other assets to pay for non-covered medical care in the last five years of life.

More than 3 billion people on the planet are under the age of 25. The largest generation in human history even if these young people choose to have smaller families the worlds population will still rise from \$7 billion to 9.8 billion by 2050. The equiva-lent of adding another India or China to the world.

In Denmark, 10 nurseries are offering two hours of free childcare on Thursdays nights to give parents a quality copulation time so they could make more children.

It's a strange world. Ronald Pose, a 490 pound convicted murderer, has petitioned to have his execution in Ohio cancelled, arguing that lethal injection on an obese man might not work resulting in serious physical and psychological pain.

In Louisiana, Joshua Adam Carter, age 25, tried to hijack an unmarked police car that was on a car theft stakeout. Inside the car were two federal marshals and a state trooper. A police spokesman said later Joshua is not one of your bright ones.

I feel the pain of tango dance teacher Alberto Gigo of New York. He told his students to hold their heads high and look at the ceiling when dancing the tango. Alas, while demonstrating what he meant, poor Alberto fell right through a window and 85 feet to the pavement.

Guess what the researchers at the smell, taste and sex foundation in Chicago came up with, after trying over 60 different scents under the noses of women? The top sexual sense for arousal was a combina-tion of cucumbers and candy. Any comments ladies?

Becky Adams, a retired prosti-tute, said she would have no objec-tion if her 16-year-old daughter followed in her footsteps. She said, "At least prostitution is an honest profession I'd rather have her be an escort rather than a politician or banker."

A new study using atomic clocks

confirmed Einstein's prediction that time runs faster the higher off the ground you are. For every foot above ground a person ages 90 billionth of a second faster over a lifetime.

Singer/performer Cher tweeted, "If Romney gets elected I don't know if I can breathe the same air as him and his right wing racist homophobic women hating teabag masters." She later tweeted an apol-ogy saying, "Sorry, I let the dogs loose on this one."

Looking for a good California red wine, try some from Washington State. Try Gramercy Cellars Columbia Valley Cabernet, 2009. Cost \$50, a pitch perfect example of the regions cabemet it has a blend of tobacco and the gravelly core. 2009 Covey Run Quail Series Cabernet Sauvignon Columbia Valley, at \$9 an amazing value. This is a legitimate Cabernet with a proper Leafy aspect to its chewy black current and olive flavors.

Time to open a bottle of Merlot and contemplate on the days happenings.

Your comments are welcome

LETTER: Bob Daddi is Qualified

ENDORSEMENT

Dear Editor, — Pat McPherson, Ojai

A City council position is very serious. It is not a training ground for someone who has not been in a position of management, leadership, or who has not had years of experience participating in city issues. **Bob Daddi** has the qualifications.

I first met Bob when the skate park began. I saw his dedication to getting the job done. I also saw his ability to identify problems and get them resolved, no matter how big they were or how politically challenging they may be.

Bob certainly was not one to accept how things were done in the past nor did he sit back and accept the words of the establishment. He was and is a leader.

Over the past thirty months, I have attended over one hundred meetings with Bob, working side-by-side to take back **Golden State Water Company in Ojai**. Bob has always been there, dedicated, creative, getting up at 4am or staying up past midnight to research a subject to share at our meetings, and making contacts with people over the country to make sure we had ALL of the information to make informed decisions.

I do not always agree with Bob, but I believe he will always be looking out after the interests of ALL of the people in the **City of Ojai**. We are privileged to have such a dedicated person want to represent us. I encourage you to join me and my wife Julie, and vote for **Bob Daddi** for **Ojai City Council**.

— Pat McPherson, Ojai

California Hikers Sue To Axe The Adventure Pass

by Alasdair Coyne

The U.S. Forest Service's "Adventure Pass" is being challenged in federal court by four **Southern California** hikers. Under the Adventure Pass program, visitors are required to display a pass on their vehicle when they park on the **Angeles, Cleveland, Los Padres, and San Bernardino National Forests**, even when they do not use any developed facilities.

In a civil suit filed yesterday, myself and **Richard Fragosa**, both of **Ojai**, **John Karevoll** of **Running Springs**, and **Peter Wiechers** of **Kernville** are asking the **Los Angeles District Court** for relief from having to pay a fee just to go for a hike in many popular parts of the four forests.

A similar fee on the **Coronado National Forest in Arizona** was struck down in February by the **Ninth Circuit Court of Appeals in San Francisco**. Writing for the unanimous three-judge panel, **Judge Robert Gertlerman** said, "Everyone is entitled to enter national forests without paying a cent." That decision is binding in nine western states, including **California**, but the **Forest Service** has not yet made any changes to its **Adventure Pass** fee program, which is one of the largest in the nation.

It should now be possible to go for a hike in your local forest without having to risk a ticket if you don't pay an access fee. Eight months after the **Arizona** court ruling is quite enough time for the **Forest Service** to bring their other local fee programs into compliance. The **Forest Service** is not above the law.

Recreation fees on federal land are governed by the **2004 Federal Lands Recreation Enhancement Act**, or **REA**. Fees are authorized under the **REA** for use of campgrounds and day use sites that meet certain minimum requirements, but fees are prohibited for some activities, even where those requirements are met. The activities for which fees are prohibited include parking, passing through without use of facilities and services, camping in

dispersed undeveloped areas, and general access.

The hikers challenging the **Adventure Pass** are represented by public interest attorneys **Matt Kenna** of **Durango, Colorado**, and **René Voss** of **San Anselmo, California**, with support from the **Colorado-based Western Slope No-Fee Coalition**.

"The 9th Circuit ruling is quite clear that forest visitors who don't use developed facilities can't be charged a fee," said **Coalition president Kitty Benzar**. "Yet fee signage across southern California's four National Forests, as well as information on the Adventure Pass website, says you must pay just to park your car to access trails, rivers, lakes, and undeveloped backcountry. People are being intimidated into paying illegal fees under threat of federal prosecution. We are confident this lawsuit will put a stop to that."

The **Forest Service** has 60 days in which to respond to the lawsuit.

To read the lawsuit filed October 23, go to www.OjaiandVenturaVIEW.com

Those Dirty Dems

It appears the **Ventura County Democratic Party** didn't learn much from the late **George McGovern** who fought for decency and opposed back room politics in the **Democratic Party**. Knowing the **Ojai Valley Democratic Club** had endorsed **Bob Daddi** and **Betsy Clapp** for the **Ojai City Council** race, the **Ventura County Democratic Party** took it upon themselves to send out a mailer to all **Ojai Democrats** that said "**The Only Official Democratic Voter Guide**", endorsing **Severo Lara** and **Betsy Clapp** instead.

These shenanigans have got to stop if **Ojai Democrats** are to ever again trust the **Ventura Democratic Party**. — Joel A., Editor

THE LEASHES END

Ron and Dudley.

by Ron Rowe

If you would like to know what your dog is thinking, there is a new book out entitled, *Inside of a Dog: What Dogs See, Smell, and Know*, by Alexandra Horowitz. Alexandra is a cognitive scientist and professor of Psychology at Columbia University. It's a fascinating book on canine behavior that reveals what's going on in the mind of your four legged friend.

Contrary to popular belief, elephants can run but their gait is unlike any other animal. This, according to Stanford University Researcher, John Hutchinson, who said most four legged animals have three gaits; walk, trot and run. Elephants run like Groucho Marx; no matter how fast elephants run their gait doesn't change. Their four legs never leave the ground at the same time, they have been clocked running as fast as 15 miles per hour.

Thanks to President Obama, who said Iceland would face diplomatic measures if they continue to kill endangered fin whales. These whales were nearly extinct. Iceland is now cooperating by replacing whale hunting with whale watching as an economic alternative.

China made an announcement that it will discontinue serving shark fin soup at government functions. Over one third of the world sharks face possible extinction as, each year, millions of sharks have their fins cut off and then thrown back into the sea to die. China is the largest market for shark fins. This decision marks a milestone in the campaign to end this cruel and wasteful practice.

Poet Valery Law is employing sheep to compose her poetry. Fifteen sheep will have a word sprayed on their fleeces. Valery will then watch the sheep move around on a platform to see what new poems they create.

She said this is an exciting project in which the landscape of the countryside connects with the inhabitants and creates organic Poetry. She received a \$4,000 grant for the work.ah well, it takes all kinds of artistic projects.

Speaking of sheep, the town of Moffat, Scotland, had their annual sheep race. Sheep are ridden through the streets of the town by custom made jockeys in several

paces throughout the day.

Turkey had its first ever animal rights rally; dogs, cats, donkeys, monkeys etc. join 2,000 people to march for animal rights. The mayor of Istanbul led the march carrying a lamb in his arms. He said, "I invite all citizens to protect the environment for all living beings."

In Italy, a beach just north of Rome will sell you a season pass for the vacationing pet and their two legged companion. The pass gets the pets a mini umbrella and a towel. It allows pets to swim in the sea and even take a shower at the end of the day so he doesn't go home covered in wet sand.

Three kangaroos escaped from a German zoo with the help of a fox and wild boar. The kangaroos got free of their pen through a hole dug by the fox then breached the zoo exterior fence through a hole dug by the wild boar. Now that is what I call animal cooperation.

A pair of otters gave their keeper at a French zoo a taste of what it's like to live in a cage. They snatched his key from the lock then dove into the pool, leaving him locked in the enclosure for three hours until staff located a spare key.

A family of Norwegian bears broke into a holiday cabin and threw an epic alcohol fueled party. The cabins' owner, Even Nilsen, returned to his cabin to find the Bears had eaten all the food and bitten into over 100 cans of beer sucking down the contents. One bear became so intoxicated it passed out on the bed leaving itself covered in beer. Sounds to me like Goldilocks and three bears tale.

Police have solved the mystery of over 75 flags stolen from the Civil War graves in a Hudson, New York cemetery. The police thought teenagers were responsible, but after the installation of surveillance cameras they discovered a woodchuck taking a flag. When looking in nearby woodchuck dens, police found the remains of dozens of missing flags.

If you would like to help rescue farm animals, adopt one. You can adopt a chicken for \$10 a month, \$25 for a goat or sheep, or \$50 for a cow. You will receive an adoption certificate plus a color photo of your adopted animal. Call 607-583-2225 or www.FarmSanctuary.org.

Time to feed Little Nellie. Peace to all living beings on earth Your comments are welcome

Haunts from Ventura's Cemetery Park

by Richard Senate

The group made their way to Cemetery Park, the former St. Mary's Cemetery, for a walk into the supernatural side of the controversial park.

There they discovered the history of the place that dates back to 1866 and learned about some of the people who rest here. The group next gathered to hear of the many ghostly encounters rumored to have hap-

pened over the years.

There are tales of a headless man and phantom lights, but the most persistent tales focus on a woman in a white dress with a large hat. Some say it's her wedding dress she never wore in life.... falling ill and passing away days before her wedding day.

Several experiments were tried and some seemingly something's haunts the place. The old Cemetery never fails to produce paranormal events!

— Richard Senate, hainthunter@aol.com

Rumors say this tree is haunted by a phantom woman. People have gotten pictures of Orbs here.

People complained of batteries going dead in their cameras, a phenomena linked to haunted places. People have gotten "Orbs", figures, and once even an old upright tombstone! They were removed in the 1960s.

Local community advocate, Helen Yunkers, attends Mr. Senate's Cemetery Tour. Pauses at one of the few marked gravesites at what was once Ventura's burying grounds.

"If you put the federal government in charge of the Sahara Desert, in 5 years there'd be a shortage of sand."
 — Milton Friedman

BFB Music: Teamwork and Experience; Everyone Wins

Nordhoff Rangers

Ernie and Dustin Boynton of Nordhoff High School after the winning game at San Marcos High School.

Brian Faith Band
by Joel Anderson

People always say follow your dream. As we know we all have different dreams that may not agree with those around us. However, if we take a closer look, the lessons that we learn taking those journeys are the same.

Football is a team sport, promoting leadership and responsibilities as well as teamwork. No one person wins the game. There are 11 people on the field, each with their own work ethics and tasks to perform. If all is performed correctly, a goal is achieved which is good for all.

Nordhoff High School RANGERS in Ojai is an example of a great team working together. Players like **#14 Tanner Workman (Quarterback)**, **#22 Matt Woodcock (Running Back)**, **#7 Dustin Boynton (Linebacker)**, and **#27 Hannah Greene (Kicker)** just to name a few, help the coaches work a little easier. Without the great team and knowledge of the Varsity Coaches it would not be the same.

After watching a couple Nordhoff games, Ernie Joseph of the Brian Faith Band, said "They truly out hustled the other teams with a great running and passing game, great QB, and had full support of the entire team." Ernie, back in the day, was a team player with the Santa Barbara Dons Football Team as Quarterback, Defensive Back and Wide Receiver.

Music is much like that. If you're in a band, not only are you responsible for the instrument you are playing, but you must also have teamwork to perform. One wrong note can throw the whole song off, including the other band members. One wrong note can ruin the whole gig just as one right note can improve your band-mates performance.

Practice and rehearsals are key to both football and musicianship as well as in life itself. Nothing is given to you. Hard work and listening to others can bring great

become seasoned — and expecting to **Win the Game** is unrealistic, if not downright egotistical. Everyone needs to overcome petty bickering and keep their delusional egos from getting in the way of the overall picture. The experienced

BFB's Ernie Joseph with South All Stars preparing for BFB Original "Feel Alright" on YouTube

politics. Does a politician with zero experience and zero track record think he can just waltz into a top office and learn on the job while taxpayer dollars are on the line? Some do.... but many a precious dollar has been thus frittered away. There are not too many dollars left to spend.

The Brian Faith Band has been together for years, achieving high honors within the music family. They have paid their time-honored dues, practice, practice, practice. They also truly care about people. They have given their time and knowledge freely so that others' dreams may also be achieved. When you have an accomplished good team, you have developed a lifetime bond that can weather any storm. Mick Jagger - *The Rolling Stones*, Steven Tyler - *Aerosmith*, Roger Daltrey - *The Who*, and Brian Wilson - *The Beach Boys* are all great examples of successful experienced teamwork that gets it done! All of these bands have overcome great obstacles in the past, yet the music plays on. There is a certain sense of chemistry

Nordhoff Linebacker Dustin Boynton and his step-mom Lisa Morris after the game.

Expecting to saunter in with no experience because you haven't

drummer setting the percussion and the rest of the band as backup, you just have an ordinary person singing. Too many people and bands get into the material aspect of life and their own self-importance, forgetting the love

Does a politician with zero experience and zero track record think he can just waltz into a top office and learn on the job while taxpayer dollars are on the line? Some do.... but many a precious dollar has been thus frittered away.

of the game/ music and doing what's best for the fans. Do not lose the passion. Love what you do, and do it well.

— Joel Anderson

SRS NEWS: Denny Aaberg, Jewel's co-writer, is at SRS Workshop doing preliminary tracks on an upcoming project. He is particularly pleased at how the harmony and backing vocals are coming along so well. While taking a break at a recent **SRS session**, Denny told stories of his close friendship with Jewel. Besides writing together, Denny mentioned how he taught Jewel to Surf. Denny is an avid surfer who also wrote the highly acclaimed surf film "Big Wednesday".

ICU's Jimi LeRoy is writing more tunes for a new album that will also include his latest song, "You Get What You Give"... "Why Do You Love Me" Singer/Songwriter Jimmy Haggerty is also currently mixing tracks on an original project, "Love of My Life." Also, Ojai's multi-talented James Antunez will be in the studio working on his original material... As is BFB vocalist Karen Perry.... Stay tuned for the details.

Also, watch for new BFB YouTube videos produced by Johnny Podz, including "I Never Knew You" and "I Can't Help Being Yours" and "Popcorn Double Feature."

**Lower Water Rates
Protect Our Basin**

Our beautiful valley has been
struggling with water manage-
ment issues, shortages and rate
hikes. It's time we make some
changes and take charge. Elect me
as YOUR District 5 Representative
and I will ensure that our water
rates are lowered and our water
basin protected!

**ELECT TROY
BECKER**

Candidate, District 5 Director of the
Casitas Municipal Water District
Ojai Planning Commissioner
Owner, Ojai Pool Store

BeckerForOjaiWater.com

Paid for by committee to elect Troy Becker CMWD 2012.

- Intertribal Culture
- Native American Museum
- Youth Gatherings
- Crafts/Demonstrations
- Native Plant & Prayer Garden
- Special Gatherings and Celebrations
- Grounds - 5.6 acres
- Farmers Market

The "Nuui Cunni" Cultural Center is dedicated to
preserving, restoring, and teaching our Native
American culture, history, and traditions by providing
a facility available for educational, ceremonial, and
social activities for Native Americans as well
as the interested public.

TIME "Lost Time is Never Found Again." - Benjamin Franklin

"Fighting for Fair Water Rates"

VOTE BOB DADDI Ojai City Council

Bob wants to restore Ojai to the vibrant place it used to be

- Bob has consistently represented the residents of Ojai before the council

- Bob has worked with OjaiFLOW through the last rate increase cycles to remove Golden State Water
- Bob helped secure a grant to complete the Sarzotti project
- Bob sponsored the fire safe council efforts in educating Ojai residents

**WATER RESCUE
BONDS NOW**

Paid for by Ojai FLOW that supports the acquisition of Golden State Water in Ojai

www.OjaiFlow.com

A WIN for everyone in the Casitas Municipal Water District

- Ojai Golden State rate payers receive water at Casitas rates Typically a 60% savings
- Ojai Golden State rate payers pay for the bond with the savings ... bond pays for the election, legal expenses, capital improvements to bring system to Casitas standards, and to buy the system from Golden State.

It won't cost Casitas or its present rate payers a penny!
